

Facilities Management | Michael W. Millsapps | Assistant Director | 5401 W. 20th Street | Greeley, Co 80632

April 12, 2010

To whom it may concern,

I am writing this letter of recommendation on behalf of JCOR Mechanical, Inc. I understand that JCOR is in the prequalification process for a project with the City of Aurora. In 2009, JCOR completed a multi-phase HVAC upgrade project that finished on-time and on budget. JCOR managed multiple subcontractors and worked within a very flexible schedule that brought them in during the day, evening and overnights to get the job done while keeping the building occupied and classes in session. JCOR has been very accommodating to all of the College's needs, especially last minute staff and faculty classroom space changes where work schedules were compromised. The JCOR staff and their subcontractors were on-time, courteous to faculty, staff and students and very dependable.

I would recommend JCOR Mechanical for any organization that is looking for professional, experienced and dependable HVAC project management, installation and maintenance.

If you would like to discuss JCOR Mechanical and how they might benefit your organization, please do not hesitate to call.
